

HÉLDER GARCIA

JUNIOR SOFTWARE ENGINEER

Dedicated and curious Junior Software Engineer with hands-on experience in web development, API integration, and client collaboration. Currently in the ultimate year of a Software Engineering degree, eager to contribute to impactful digital projects and expand technical expertise in a collaborative, real-world environment.

PROFESSIONAL EXPERIENCE

EPOCH MULTIMÉDIA

Web Developer Intern

Mar 2024 – Sep 2024

- Develop and maintain websites using WordPress and bespoke PHP solutions
- Implement responsive layouts with HTML5, CSS3, and JavaScript
- Create custom themes and plugins for WordPress
- Debug and optimise existing code for performance and security
- Integrate third-party APIs and RESTful services
- Manage MySQL databases and write queries to support dynamic content
- Collaborate with the design team to translate UI/UX mock-ups into functional features
- Provide technical support and carry out client-requested updates
- Participate in team meetings for sprint planning and task prioritisation
- Use version control (Git) for collaborative development and deployment
- Conduct cross-browser and mobile compatibility testing
- Write clean, modular code following best practices and accessibility standards
